## Community Forum Schedule by Supervisorial District

The Riverside County Department of Public Health is conducting a County-wide community health assessment and community health improvement planning process to learn about the community: health of the population, contributing factors to higher health risks or poorer health outcomes of identified populations, and community resources available to improve the health status. The SHAPE Riverside County Initiative (Strategic Health Alliance Pursuing Equity) will include two opportunities to participate: 1) community forums where Riverside County health data will be presented and participants will develop health priorities and identify existing or needed resources to address these priorities; and 2) a community health survey available on-line at: <http://www.rivcoph.org/CommunityForums.aspx>.

Please share these forum locations, dates and times with your clients, customers and staff and encourage them to help shape a healthier future for Riverside County. If you have questions, please contact the Department of Public Health at (951) 358-7036.
