---

Inland Empire Health Plan (IEHP) would like to remind you of the importance of engaging with the California POLST Registry (CPR) to connect a digital POLST network throughout the Inland Empire Healthcare System which includes independent physicians, hospitals, skilled nursing facilities, and the Health Information Exchange (HIE).

CPR provides a more effective means of documenting, communicating, and ensuring patient desired treatment at the end of life is being honored. Integration is currently underway within our network. We would like to add Primary Care Providers to the CPR and there is no cost to participate.

**Please go online today to sign up.** The key to the success of this initiative is your participation. We strongly encourage you to sign up. Signing up is easy and takes less than 5 minutes. Simply go to [www.capolstregistry.org/#/mdsignup](http://www.capolstregistry.org/#/mdsignup)

**Some highlights of California POLST Registry are:**

- Access by web and mobile technologies (phone, tablet) 24/7
- POLST form creation within CPR with physician signature
- Patient/Surrogate Decision Maker can sign the form electronically
- Ability to submit POLST forms immediately after consultation
- Language translation
