**From:** Teri Rhetta, MD, Medical Director, IEHP  
**Date:** October 14, 2016  
**Subject:** **Provider Burnout Survey**

---

---

Inland Empire Health Plan (IEHP) is currently investigating ways to address Provider burnout and physician wellness. As a valued IEHP Provider, your input is important to us. IEHP has created a Provider burnout survey to help identify burnout concerns and to assess if there is a market opportunity for a 3-day CME Retreat which would offer accredited CME courses, and help to restore mind-body wellness in our Providers who may be feeling some burnout in the workplace.

Please take a few minutes to complete the survey on or before **November 11, 2016** by logging into the IEHP Provider Portal at <https://providers.iehp.org/account/login>. Input from every medical specialty is vital to the success of the survey and the subsequent pilot therapeutic solutions.

Thank you in advance for your time and participation as we work to support IEHP Providers who may be struggling with symptoms of burnout. If you have any questions or concerns, please contact the IEHP Provider Relations Team at (909) 890-2054.
