## Pharmacy P4P Program Update

### **\*Additional P4P Bonus Detail Below\***

IEHP is pleased to announce the release of 3rd Pharmacy P4P payment (for the period October 2014 through March 2015). Our full 2014 Medicare result is very encouraging and is very close to the National Average. However, the result for 2015 year-to-date is not as encouraging as in 2014.

The result shows that YOU can make a difference in Pharmacy Quality Management. As a result of the great achievement in the last 18 months, IEHP is adding a one-time bonus to this payment cycle. This one-time bonus equals to 100% of what you are getting originally based on the P4P payment schedule (i.e. if you are receiving \$5,000 P4P dollars for this payment period, you will receive \$10,000 P4P dollars).

There is still time to strive for better improvement in 2015. Start using the P4P dollars and help us achieve the goals in 2015! As your performance goes higher, your future payment will go up accordingly.

Don't forget that IEHP's performance metrics has changed (addition of Statin use in Diabetics). Also, outcome-based MTM is coming next year, only 4- or 5- Star Pharmacies will be eligible to participate.

Sincerely,

IEHP Pharmaceutical Services Department
