Pharmacy Pay For Performance (P4P) Program

Dear Pharmacy Owners,

Inland Empire Health Plan (IEHP) is pleased to announce the IEHP Pharmacy Pay-For-Performance (P4P) Incentive Program. Funds are allocated for performance objectives in the areas of Medication Adherence, Use of ACE/ARB in patients with Diabetes, Use of High-Risk Medications in the Elderly, and Generic Dispensing Rate. The measurements are selected from a list of Pharmacy Quality Measurements developed by Pharmacy Quality Alliance (PQA) and are approved by the IEHP Pharmacy P4P workgroup. These programs were developed to provide monetary rewards depending on achievement against predetermined standards. Together, our goal is to help validate the roles of community pharmacies in promoting Healthcare Quality and define a pharmacy payment model for outcome-based MTM services.

Pharmacy P4P

- Payment is based on the Pharmacy meeting or exceeding the clinical threshold goal for 2013-2014 dates of service.
- Program includes all lines of business (Medicare and Medi-Cal)
- Clinical threshold are set before each measuring periods
- Measurements may be modified each year (based on the IEHP Pharmacy P4P workgroup recommendation)
- Pharmacists may view their store performance via the Pharmacy Quality Solutions' EQuIPP Portal. The data is refreshed on a monthly basis.
- All in-network pharmacies who registered with IEHP are eligible to participate in the IEHP P4P program. At the end of the measuring period, pharmacy must meet all conditions listed below in order to be included in the P4P payment pool:
 - Annual prescription volume of over 1000
 - Must be a retail (community) pharmacy
 - Pharmacy location is in San Bernardino or Riverside County (Pharmacies located at the county line may be eligible depending on the pre-P4P Rx volume)
- Bi-annual evaluation and payment
- Annual Pharmacy of The Year Award (Top 10 Pharmacies based on the final performance level)
