

COVID-19 Flexibilities for Medical Staffs and Hospital-Based Physicians

MAY 21, 2020 | 12:15PM - 1:15PM

During the COVID-19 pandemic, the federal and state government have waived laws and regulations to increase flexibility for hospitals and other health facilities faced with significant uncertainty regarding workforce and patient flow. Medical staffs and physicians have been impacted by changes ranging from broad suspension of hospital licensing requirements to managing credentialing and telehealth. This webinar will present an overview of the most significant federal and state law waivers and provide insight from medical staff leadership on how these changes have impacted care delivery in the field. The webinar will also provide an overview of new CMA resources available to assist medical staffs in navigating these waivers.
