

FREE WEBINAR

Inland Empire Health Information Organization: Connecting Providers to Patient Information Through Data Sharing

**Tuesday, June 30, 2020
12:15 pm to 1:15 pm**

PRESENTERS: Lacey Mendoza, Manifest MedEx and Jana Arellano, IEHIO

LEARN ABOUT WHAT WE DO AND WHY YOUR PRACTICE SHOULD BE INVOLVED!

Did you know that as an ambulatory practice, you can be a part of the IEHIO for **FREE**? This means that most primary care physician practices can immediately begin to participate in data sharing services for treatment at the point of care. This enables you as the physician to provide enhanced care, reduce readmissions, operate more efficiently and be more responsive to the patient population.

About the IEHIO & Manifest MedEx:

IEHIO's purpose is to connect providers with data by coordinating data sharing services through treatment at the point of care and by addressing the psycho-social determinants of health to support whole-person care efforts.

Manifest MedEX is a California HIE (Health Information Exchange) and shares data among 600 healthcare organizations across California, including hospitals, health plans, ACOs, and other ambulatory groups. This includes almost all hospitals in the Inland Empire.

The IEHIO, in partnership with Manifest MedEx, promotes a community-wide data sharing model that improves healthcare for all residents of the Inland Empire.

Ambulatory practices can access Manifest MedEx **at no cost**.

The IEHIO is managed by a board of directors including representatives from RCMA, SBCMS, IEHP and other key stakeholders.

REGISTER IN ADVANCE ONLINE:

WWW.SBCMS.ORG.EVENTS

OR VISIT

WWW.SBCMS.ORG

CONFIRMATION INCLUDES:

- Webinar Login Link
- Meeting ID Number
- One Tap Call-In Mobile

There will be time for questions and answers following the presentation via the "chat" feature on Zoom.

Questions? Please contact SBCMS at scobb@sbcms.org or 909-215-7179 or Jana Arellano with the IEHIO at 909-368-1311.
