Subject: **Global Quality P4P Program- IMPORTANT CODE UPDATE**

Inland Empire Health Plan (IEHP) has updated the 2019 Global Quality P4P (GQ P4P) Program measure: *Comprehensive Diabetes Care – HbA1c <8*. Please see below for the update.

Effective 10/1/2019, there has been a code change for CPT II 3045F. This impacts the GQ P4P quality measure, *Comprehensive Diabetes Care – Hba1c <8*.

Code 3045F has been **replaced** with the following:

- **3051F**: Most recent hemoglobin A1c (HbA1c) level greater than or equal to 7.0% and less than 8.0%
- **3052F**: Most recent hemoglobin A1c (HbA1c) level greater than or equal to 8.0% and less than or equal to 9.0%

Code 3045F is no longer valid for the 2019 GQ P4P Program, for services provided after **9/30/2019**.

Beginning with DOS 10/1/19, please use 3051F or 3052F as appropriate. IEHP will reject the claim or encounter data submission with 3045F due to invalid code. Please adjust your office coding practices immediately.

Thank you for your continued partnership in providing quality healthcare to IEHP's Members. Any questions related to this program can be sent to IEHP's Provider Call Center at 909-890-2054 or to IEHP's Quality Department at QualityPrograms@iehp.org.

As a reminder, all communications sent by IEHP can also be found on our Provider Portal at the following address: www.iehp.org/en/providers/plan-updates.
