

Attention: Physicians & Office Staff

# Free COVID-19 Webinars

*“Do You Know if Your Patients Have Tested Positive for COVID-19?”*

**Tuesday, June 2, 2020 | 12:15pm**

*Find out how to use Manifest MEDEX, our health information exchange, to see test results, hospitalizations and other important information on your patients.*

Manifest MEDEX will walk through the COVID-19 data available in their HIE platform and a variety of ways that practices can use it, including:

- Knowing in real time when a patient tests positive for COVID-19 (MXNotify)
- Where to find a broader range of lab results and other COVID-19 related information in the MX longitudinal health record (MX Access)
- How to use MXAnalyze to identify a list of patients at risk of poor outcomes from COVID-19 and/or those that have tested positive in the past

## Presenters:

Lacey Mendoza, Manifest MEDEX  
Director of Customer Success  
Brittany Wepler, Manifest MEDEX  
Director of Sales
